PROFESSIONAL SUMMARY

Creative and detail-oriented Full-Stack Developer and Graphic Designer with hands-on experience in designing compelling visual content and building robust, scalable web applications. Skilled in Adobe Suite and MERN stack. Proven ability to manage client projects from concept to completion with a focus on user engagement and brand identity.

SKILLS

Design Tools: Adobe Photoshop, Illustrator

Development: React.js, Node.js, MongoDB, Express.js, Redux, Firebase, Tailwind CSS, HTML, CSS, JavaScript

Other: C, C++, Python, Java, Git & GitHub, REST APIs, VPS Deployment

EXPERIENCE

Software Engineer Intern - *Matrix Credit Risk Controls Pvt. Ltd.* | Jun 2025 – Jul 2025 | Delhi, India (On-site)

- Built a **Contact Point Verification System** to validate, manage, and authenticate user touchpoints across platforms.
- Contributed to development and debugging using **React, Node.js, and JavaScript**.
- Worked with **Chrome extensions, APIs, and Git** for seamless integration and version control.

Full-Stack Developer - *Freelance* | 2024 – Present

- Designed and developed **full-stack web applications** for real estate, interior design, and portfolio clients.

- Customized solutions with the **MERN stack and Tailwind CSS**, ensuring responsive UI and scalability.
- Delivered projects aligned with client branding through iterative collaboration.

Graphic Designer - Freelance | 2020 – 2023

- Created **logos, social media posts, and promotional banners** for diverse industries.
- Produced viral Instagram content for pages with **100k+ followers**, boosting engagement and visibility.

EDUCATION

IITM Janakpuri – MCA (2024-2026)

IGNOU – BCA (2020-2023)

PROJECTS

- **Ragvi Design** – Responsive MERN + Tailwind website for an interior design firm, featuring portfolio, services, contact options, SEO optimization, and mobile-first design.
- **Sky Estate** – Real estate platform (MERN) with property listings, authentication, search filters, landlord contact, and listing management for buying/renting properties.
- **TechBlog** – Full-featured blog app (MERN) with secure login, CRUD, media handling, comments, and an admin panel for managing posts, users, and engagement.
